

# How Do I Add a New User to Donor CRM?

Last Modified on 01/10/2025 10:09 am EST

This article details how to add and manage users in Donor CRM. There are two types of user privileges: Standard User and Admin User. Admin Users have the ability to add and manage new fields, codes, and other admin users, whereas Standard users will not.

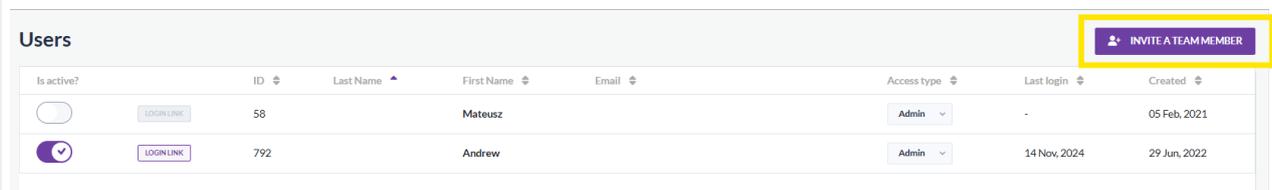

## How to Add a New User

First, select your name in the upper right corner. Select **Users**.

**Note:** Only Admin Users will have access to Users option noted above. If you are a Standard User and are looking to add a new user, contact an Admin in your CRM account for assistance.

From the Users panel, select **Invite a Team Member** on the right-hand side.

On the top right, there is a purple button with a plus icon and the text 'INVITE A TEAM MEMBER', which is highlighted with a yellow rectangular box. Below the title is a table with columns: 'Is active?', 'ID', 'Last Name', 'First Name', 'Email', 'Access type', 'Last login', and 'Created'.

Is active?	ID	Last Name	First Name	Email	Access type	Last login	Created
<input type="checkbox"/>	58		Mateusz		Admin	-	05 Feb, 2021
<input checked="" type="checkbox"/>	792		Andrew		Admin	14 Nov, 2024	29 Jun, 2022

Enter in their First Name, Last Name, and Email Address. Check the box for Admin User to grant them the ability to add and manage new fields, codes, and other admin users.
